

DB4.18

Ready-to-Run 1/18 Scale Electric 4WD Desert Buggy

Ready for the beach, backyard or basement, day or night!

Wherever you want to go, the DB4.18 can get you there fast with full-time 4WD! No previous driving skills? No problem! The DB4.18 was designed for stability -- and with dual rates on the throttle and steering, you can take things nice and easy while you learn and graduate to fast and furious when you're ready.

Everything you need is already in the box -- and virtually all of it is installed and ready to go. Load the included "AA" batteries into the 2.4GHz radio, charge up the NiMH battery...and you have the green flag on fun.

With 4WD for balanced handling and LED lights to show the way, you can run all day and into the night.

DIDC0045

Length: 11.5 in (294 mm)
